英語 (明治 商学部・本番水準)

Trillion 塾

第1章 (例題 — 明治大学レベル・5 分)

明治大学英語は 60-70 分・大問 4-5 題。本問は長文 1 題で 20-25 分相当。

【例題】(明治大学 商学部 入試 典型形式・改題)

Read the passage and answer the questions that follow.

The phrase "gig economy" entered serious usage in the early 2010s to describe a form of work organization that, while not new in its essentials, had been newly enabled by smartphone-based platforms. A worker driving for a ride-hailing service, delivering food for a delivery app, or assembling furniture for a home-services platform was typically classified not as an employee of the company that connected her to customers, but as an "independent contractor" — a freelance operator with whom the platform had a relationship rather more like that of a marketplace to its vendors than that of an employer to its staff. The arrangement allowed both sides considerable flexibility: workers could log on when they chose, take the assignments that suited them, and turn down those that did not; platforms could match supply and demand without committing themselves to the legal obligations that traditional employment would have imposed.

In the first phase of the new arrangement's growth, commentators on both ends of the political spectrum found something to celebrate. Champions of market liberalization saw a long-overdue dismantling of regulatory restrictions that had, they argued, made traditional employment more rigid and less responsive than the modern economy required. Advocates of individual autonomy welcomed the prospect of work that did not require subordination to a single boss, on a single schedule, for a single career. Workers themselves, in early surveys, often reported high levels of satisfaction with the flexibility their new arrangements provided.

As the gig economy grew, however, more uncomfortable observations began to accumulate. The flexibility that workers prized turned out, in many cases, to come at the cost of access to the social protections that employment had traditionally provided: health insurance, unemployment benefits, paid leave, contributions toward retirement. Workers whose income depended on a single platform discovered that they had little recourse when the platform changed its rules, lowered its rates, or deactivated their accounts. The freedom

to turn down assignments, attractive in principle, was less attractive when accepting them was the only way to earn a sufficient living. Sociologists began to describe a kind of work that combined the legal autonomy of self-employment with the economic dependence of traditional employment, but offered the worker the protections of neither.

Platforms have responded to these criticisms with a mixture of accommodation and resistance. Some have introduced limited benefits — accident insurance, basic health coverage, modest paid leave — while continuing to maintain that the workers receiving them remain independent contractors. Others have campaigned vigorously, often with substantial financial backing, against legislative proposals that would have reclassified some categories of gig workers as employees, on the grounds that such reclassification would destroy the flexibility on which the model depends and would, in any case, be unwelcome to many of the workers themselves.

The legal response has been uneven. Some jurisdictions have introduced new intermediate categories of worker — "dependent contractor" in Canada, "worker" (distinct from "employee") in the United Kingdom — designed to capture exactly the situation that gig workers occupy. Others have insisted that no third category is needed, and that the question is simply whether existing definitions of employment have been applied with sufficient rigor to the new circumstances. The European Union, after several years of negotiation, adopted in 2024 a directive that creates a presumption of employment status for platform workers, with the burden of proof on the platform to demonstrate that the worker is genuinely independent.

Whether these reforms will produce the outcomes their designers intend is unclear. Critics of the more interventionist measures argue that they will push platforms to reduce the number of workers they hire, to relocate to friendlier jurisdictions, or to invest in automation that eliminates the work entirely. Defenders respond that some such effects are precisely the cost of insisting that the social protections developed over a century of struggle should not be silently dismantled by a change of legal classification.

The deeper issue, perhaps, is what the social bargain implicit in modern employment was for. If its purpose was to limit the most acute forms of insecurity that an industrial economy would otherwise produce, then any new form of work organization that exposes large numbers of workers to those insecurities is, by that standard, a regression. If, however, the bargain rested on conditions specific to an industrial era that has now passed, then the

appropriate response may be to design new institutions — portable benefits, sectoral bargaining, basic income — that serve the same purposes by different means. What is becoming clear is that the question cannot be left to the gradual accumulation of platform decisions made in the absence of any social consensus about what the work of the twenty-first century is to look like.

Q1. According to the first paragraph, how are gig-economy workers typically classified?

- ① As employees with full traditional benefits.
- ② As "independent contractors" — freelance operators in a marketplace-vendor type relationship with the platform.
- ③ As temporary government workers.
- ④ As volunteers receiving no payment at all.

Q2. What did commentators across the political spectrum initially welcome about the gig economy?

- ① The opportunity for governments to collect more tax.
- ② Market liberalization (welcomed by champions of liberalization) and individual autonomy (welcomed by advocates of autonomy), combined with high worker satisfaction in early surveys.
- ③ The elimination of all forms of compensation.
- ④ The replacement of all platforms by traditional firms.

Q3. What "uncomfortable observations" began to accumulate as the gig economy grew?

- ① That gig workers had begun to earn more than traditional employees in every category.
- ② That flexibility often came at the cost of access to social protections (health insurance, unemployment, paid leave) and that workers had little recourse against unilateral platform decisions.
- ③ That platforms had become technically obsolete.
- ④ That gig workers refused to provide services.

Q4. Which of the following is NOT cited as part of the legal response to the gig economy?

- ① The introduction of new intermediate categories such as "dependent contractor" in Canada and "worker" in the UK.
- ② The insistence by some jurisdictions that existing definitions of employment, properly

applied, suffice.

③ The European Union's 2024 directive creating a presumption of employment status for platform workers.

④ A complete global ban on all ride-hailing and food-delivery apps.

Q5. According to the sixth paragraph, what do critics of interventionist reforms argue?

① That such reforms will push platforms to reduce hiring, relocate to friendlier jurisdictions, or invest in automation that eliminates the work entirely.

② That such reforms would immediately solve all problems of inequality.

③ That gig workers should be required to join trade unions.

④ That platforms should pay no taxes at all.

Q6. Which of the following best summarizes the author's overall conclusion?

① The gig economy has been a complete success and requires no further policy attention.

② The deeper issue is what the social bargain implicit in modern employment was for; whether it should be defended in its current form or redesigned through new institutions, the question cannot be left to the gradual accumulation of platform decisions made in the absence of social consensus.

③ All gig-economy platforms should be banned and the workers returned to traditional employment.

④ Worker satisfaction has been definitively shown to be irrelevant.

ギグエコノミーの両義性 — 柔軟性 vs 保護喪失

図 1-1 ギグエコノミー — 法的自営と経済的依存の独特な組み合わせ

第2章 (解法の全体方針と武器整理・3 分)

明治商の長文は「現象 → 初期評価 → 反証 → 制度対応 → 法的対応 → 批判 → 概念的含意」の 7 段論法。

【ジャンル分析】

本文は典型的な (A) labor-economy essay。著者は 7 段かけて、ギグエコノミーを「初期歓迎 → 反証 → 法的対応 → 概念的問い直し」の流れで分析する。(B) 明治の長文は経営・経済・社会の交差テーマが頻出。

【本問で必要な 4 つの武器】

- ① (A) 現象 → 初期評価 → 反証 の 3 段ロケット
- ② (B) 両義性の論理 — flexibility ↔ protection loss
- ③ (C) 労働経済学用語 — "independent contractor" "social protection" "presumption" "portable benefits"
- ④ (D) 著者の立場 = 中立的分析者 + 社会的合意の必要性主張と読む

【各設問の戦略】

Q1 (分類) → 第 1 段 "independent contractor"

Q2 (初期評価) → 第 2 段 "market liberalization ... individual autonomy ... high levels of satisfaction"

Q3 (反証) → 第 3 段 "flexibility ... at the cost of access to social protections"

Q4 (NOT 設問・法的対応) → 第 5 段の対応リスト + EU directive

Q5 (批判の論理) → 第 6 段 "push platforms to reduce ... relocate ... automation"

Q6 (全体結論) → 最終段 "cannot be left to the gradual accumulation of platform decisions"

第3章 (Q1 + Q2 + Q3 — 分類 + 初期評価 + 反証・10 分)

「初期 3 段」を続けて聞く。明治商の中核設問。

【Q1 設問】 How are gig-economy workers typically classified?

★ 第 1 段の論理

"A worker ... was typically classified not as an employee of the company that connected her to customers, but as an '(A) independent contractor' — a freelance operator with whom the platform had a relationship rather more like that of a marketplace to its vendors than that of an employer to its staff."

★ Q1 paraphrase

本文 "independent contractor ... freelance operator ... marketplace to its vendors"

選択肢② "independent contractors — freelance operators in a marketplace-vendor type relationship with the platform"

→ 直接対応。

【Q1 正解】 ② As "independent contractors" — freelance operators in a marketplace-vendor type relationship with the platform.

【Q2 設問】 What did commentators across the political spectrum initially welcome?

★ 第 2 段の論理

"Champions of market liberalization saw (A) a long-overdue dismantling of regulatory restrictions"

"Advocates of individual autonomy welcomed (B) the prospect of work that did not require subordination to a single boss"

"Workers themselves, in early surveys, often reported (C) high levels of satisfaction with the flexibility"

★ Q2 paraphrase

本文 3 要素 (market liberalization / individual autonomy / worker satisfaction)

選択肢② "Market liberalization (welcomed by champions of liberalization) and individual autonomy (welcomed by advocates of autonomy), combined with high worker satisfaction in

early surveys"

→ 3 要素すべて対応。

【Q2 正解】 ② Market liberalization (welcomed by champions of liberalization) and individual autonomy (welcomed by advocates of autonomy), combined with high worker satisfaction in early surveys.

【Q3 設問】 What "uncomfortable observations" began to accumulate?

★ 第 3 段の論理

"(A) The flexibility that workers prized turned out, in many cases, to come at the cost of access to the social protections that employment had traditionally provided: health insurance, unemployment benefits, paid leave, contributions toward retirement."

"Workers whose income depended on a single platform discovered that they had (B) little recourse when the platform changed its rules, lowered its rates, or deactivated their accounts."

★ Q3 paraphrase

本文 "flexibility ... at the cost of access to social protections ... health insurance, unemployment benefits, paid leave ... little recourse"

選択肢② "flexibility often came at the cost of access to social protections (health insurance, unemployment, paid leave) and that workers had little recourse against unilateral platform decisions"

→ 直接対応。

【Q3 正解】 ② That flexibility often came at the cost of access to social protections (health insurance, unemployment, paid leave) and that workers had little recourse against unilateral platform decisions.

★ 重要観察 — Q1-Q2-Q3 の連動

Q1 = 法的分類 → Q2 = 初期歓迎 → Q3 = 反証データ。 (A) 初期 3 段は明治商エッセイの基本骨格。すべて第 1-3 段に集中。

第4章 (Q4 — NOT 設問・法的対応・5 分)

第 5 段の法的対応リストから外れる選択肢を消去法で。

【設問】 Which of the following is NOT cited as part of the legal response?

★ 第 5 段の法的対応リスト

- (i) "new intermediate categories of worker — '(A) dependent contractor' in Canada, '(B) worker' (distinct from 'employee') in the United Kingdom"
- (ii) "no third category is needed, and ... existing definitions of employment have been applied with sufficient rigor"
- (iii) "The European Union, after several years of negotiation, adopted in 2024 a (C) directive that creates a presumption of employment status for platform workers, with the burden of proof on the platform to demonstrate that the worker is genuinely independent"

★ 選択肢と照合

- ① intermediate categories (dependent contractor / worker) → 根拠 (i) 下線A : ○
- ② existing definitions sufficient → 根拠 (ii) 下線A : ○
- ③ EU 2024 directive → 根拠 (iii) 下線A : ○
- ④ complete global ban on all ride-hailing apps → (B) 本文に全面禁止の言及なし

【正解】 ④ A complete global ban on all ride-hailing and food-delivery apps.

💡 商学エッセイの NOT 設問: 「全面禁止」「完全廃止」のような(A) 極端な政策が本文に書かれることはほぼない。著者は中道的分析者で、極端な政策は罣の典型。

第5章 (Q5 — 批判の論理・5 分)

「介入主義への反対論」を読む。

【設問】 What do critics of interventionist reforms argue?

★ 第 6 段の論理

"Critics of the more interventionist measures argue that they will (A) push platforms to reduce the number of workers they hire, to relocate to friendlier jurisdictions, or to invest in automation that eliminates the work entirely."

★ paraphrase 対応

本文 "push platforms to reduce ... relocate ... invest in automation"

選択肢① "such reforms will push platforms to reduce hiring, relocate to friendlier jurisdictions, or invest in automation that eliminates the work entirely"

→ 直接対応 (3 要素すべて)。

★ 誤答分析

・ ② "immediately solve all problems" → 本文と (A) 正反対。批判者は介入が裏目に出ると主張。

・ ③ "should be required to join trade unions" → (B) 論点ずれ。

・ ④ "should pay no taxes at all" → (C) 論点ずれ。

【正解】 ① That such reforms will push platforms to reduce hiring, relocate to friendlier jurisdictions, or invest in automation that eliminates the work entirely.

💡 規制経済学の典型論点: 介入が unintended consequences (意図せざる結果) を生むという議論。最低賃金引き上げが雇用減少を生むという論点と同型。

第6章 (Q6 — Main Idea 設問 + 関連話題・10 分)

明治商エッセイの結論は「社会的合意の必要性」型。

【設問】 Which of the following best summarizes the author's overall conclusion?

★ 最終段の精読

"The deeper issue, perhaps, is (A) what the social bargain implicit in modern employment was for."

"If its purpose was to limit the most acute forms of insecurity ... then any new form of work organization that exposes large numbers of workers to those insecurities is, by that standard, a regression. If, however, the bargain rested on conditions specific to an industrial era that has now passed, then the appropriate response may be to (B) design new institutions — portable benefits, sectoral bargaining, basic income — that serve the same purposes by different means."

"What is becoming clear is that (C) the question cannot be left to the gradual accumulation of platform decisions made in the absence of any social consensus about what the work of the twenty-first century is to look like."

→ 主旨 3 要素:

- ①深い問い = 現代雇用の社会的契約の目的
- ②選択肢 = 既存制度の防衛 or 新制度の設計
- ③決定は platform に委ねるべきでなく社会的合意が必要

★ 選択肢②との対応

"The deeper issue is what the social bargain implicit in modern employment was for; whether it should be defended in its current form or redesigned through new institutions, the question cannot be left to the gradual accumulation of platform decisions made in the absence of social consensus."

→ 3 要素すべて含む。

【正解】 ② The deeper issue is what the social bargain implicit in modern employment was for; whether it should be defended in its current form or redesigned through new

institutions, the question cannot be left to the gradual accumulation of platform decisions made in the absence of social consensus.

★ 関連話題 — 明治商進学後への接続

- ・ (A) Uber / Lyft / DoorDash / Wolt — ギグエコノミーの主要プラットフォーム
- ・ (B) California AB5 (2019) — 「ABC テスト」で gig workers を employee に再分類
- ・ (C) EU Platform Work Directive (2024) — 本文に直接言及
- ・ (D) 日本のフードデリバリー労働問題 — Uber Eats 配達員の労組結成 (2019-)
- ・ (A) Robert Reich "Saving Capitalism" — 労働法と政治経済の関係

★ 大学進学後への接続

1 年次: 経営学原論・経済学・労働経済学

2-3 年次: 労働経済学ゼミ / 人的資源管理論 / プラットフォーム経済論

卒論候補: 日本の Uber Eats 配達員の labor classification / Portable benefits の制度設計 / 基本所得の経済効果

第7章 (明治商英語 攻略のコツ・5 分)

明治商長文を完答するための 5 つの技術。

【コツ 1】 7 段論法 (現象 → 初期評価 → 反証 → 制度対応 → 法的対応 → 批判 → 概念的含意) を予測

労働経済エッセイは「両義性の発見 → 制度的対応 → 概念的問い直し」が骨格。

【コツ 2】 労働経済・プラットフォーム経済の固有名詞

- ・ (A) Uber / Lyft / Airbnb / TaskRabbit — プラットフォーム経済の代表例
- ・ (B) Mary Gray / Siddharth Suri "Ghost Work" — プラットフォーム労働の研究
- ・ (C) Robert Reich / Joseph Stiglitz — 労働経済の現代論者
- ・ (D) Andy Stern "Raising the Floor" — basic income の提唱

【コツ 3】 明治商頻出語の文脈推測

independent contractor / freelance / social protection / unemployment benefits / deactivation / presumption / sectoral / portable benefits / basic income

【コツ 4】 誤答パターン 4 種 (明治商版)

- ・ (A) 極端化: complete success / complete ban / immediately solve / definitively shown
- ・ (B) 行動指針の押し付け: workers should join unions / governments should ban
- ・ (C) 論点ずれ: 税制・宗教・国際関係 — 本文の関心外
- ・ (D) 逆方向: 著者の中立的立場を一方的に解釈

【コツ 5】 時間配分 (明治商 60-70 分)

長文には(A) 20-25 分を上限。大問数が多いので時間配分要注意。

【最後にひとこと】

明治商の英語は(A) 語学試験であると同時に(B) 労働経済リテラシー試験。本問のギグエコノミー論は、入学後に学ぶ労働経済学・プラットフォーム経済論の核心テーマ。

第8章 (類題チャレンジ・10 分) [10 点]

本講義の手法を応用する 5 問。

(類題 1) 本文中の "independent contractor" の意味として最も近いものを選びなさい。

- ① 業務委託契約者 (雇用関係でない自営的働き手)
- ② 正規雇用者
- ③ 公務員
- ④ ボランティア

(類題 2) 本文の "deactivated their accounts" が示唆する状況として最も適切なものを選びなさい。

- ① プラットフォームが一方的に労働者のアカウントを停止し収入源を奪う事態
- ② 労働者が自発的に休暇を取る権利
- ③ コンピュータの電源を切る習慣
- ④ 退職手続きの簡素化

(類題 3) 本文中で "portable benefits" が示唆するものとして最も適切なものを選びなさい。

- ① 労働者が雇用先・契約先を変えても持ち運べる社会保障の仕組み
- ② 携帯型の物理的給付品
- ③ 海外赴任時の手当
- ④ オフィスの移動費用

(類題 4) 本文の "presumption of employment status" が示唆する制度として最も適切なものを選びなさい。

- ① プラットフォーム労働者を原則として「雇用」扱いし、独立性を証明する責任を platform 側に負わせる制度
- ② 労働者全員を employer 側が選別する制度
- ③ presumed innocent 原則の応用

④ 国際労働機関の認証制度

(類題 5) 本文の論理構成として最も近いものを選びなさい。

① 現象記述 → 両陣営の初期歓迎 → 反証 (保護喪失) → platform 対応 → 法的対応の多様性 → 批判 → 概念的含意 (社会的合意の必要性)

② 結論先出し → 根拠列挙のみ

③ 賛成意見の単純な列挙

④ 歴史的説明のみで結論なし

第9章 (まとめ・宿題・5 分)

今日の核心整理と明治商本番に向けた宿題

【本日の核心 5 か条】

- ① 労働経済エッセイは (A) 「現象 → 評価 → 反証 → 制度対応 → 法的対応 → 批判 → 概念的含意」 の 7 段論法。
- ② (B) 両義性 (flexibility ↔ protection loss) がギグエコノミー論の核心。
- ③ NOT 設問は「(C) 極端な政策」(全面禁止等) が罠。著者は中道的分析者。
- ④ 修辞設問は「(D) 反論の論理」(unintended consequences) を聞く。
- ⑤ 主旨設問は(A) 「社会的合意の必要性」型を選ぶ。「complete success / no further attention」は罠。

【宿題】

- ① 本講義の Q1-Q6 を見ないで本文だけ読み直し、自分で 6 問の設問を作成。
- ② 類題 5 問を解き直し、本文 7 段の各段にひと言タイトルを書き出す。
- ③ 過去問: 明治大学 商学部 英語 (過去 5 年分) から長文 1 題を選び、本日の手法で精読する。

【次回授業】 明治商の英作文 (150 words 程度) — "Should Uber Eats delivery workers be classified as employees in Japan?" の論理構成

【最後にひとこと】

明治商の英語は(A) 語学試験であると同時に(B) 労働経済リテラシー試験。本問の gig economy 論は、入学後に学ぶ労働経済学・プラットフォーム経済論の核心テーマ。
